# Program

The program activities are listed below. All sections will have the same activities but at an age appropriate level. Groups will also participate together at each activity. Due to weather or other reasons, not all activities may be held and the organizing committee reserves the right to substitute another activity if the youth are not having fun. Locations of events are subject to local conditions at the time of the event.

A flexible schedule is attached.

Leaders are requested to restrict water gun usage to free time and in the designated area and should not substitute water fights for activities no matter how much fun they are having. This goes for the youth as well. Unsupervised youth spraying in the general camp area will have their water guns impounded.

Lunch will not be provided this year and leaders should ensure youth have access to fluids and snacks.

Camp rules, emergency plan etc will be sent to those registered.

Unfortunately, Apple Hill Scout Reserve is a pet free zone.

There are fire pans for those who do not get a site with a firepit. Some firewood is provided.

There is no swimming but we will provide a “waterworks” to wet everyone down should nature fail to provide a repeat of last year’s monsoon.

Apple Hill is a pack in – pack out camp. Take all your rubbish with you.

Opening, Closing and Scouts Own are mandatory activities for everyone in camp. Plenty of time to take down after they are done.

Leaders are requested to put in their order for good weather ASAP.

## Program Activities:

Caber Toss

Hammer Throw

Rock (shot) Put

Sheaf Toss

Water Jug Walk

Frisbee Golf

Curling

Individual and Section Highland Dancing

(or reasonable facsimile of)

(Special recognition provided to participants)
